

Welcome to ALS - a global leader in scientific analysis

## **ALS Limited acquires DB Lab A/S in Odense, Denmark**

### **Welcome to ALS!**

It is with great pleasure that we announce that ALS Limited acquired DB Lab A/S on the 24<sup>th</sup> of May 2022.

We will, by this announcement, welcome you to ALS and inform you about our services.

DB Lab A/S, to be known as ALS Odense, will be a part of our Nordic pharmaceutical laboratories, together with our three GMP-compliant laboratories in Sweden (Luleå, Sollentuna, and Landskrona).

DB Lab A/S will continue to be a Danish registered company with the same entity registration number. They will continue to perform the same analyses, assignments and services as before the acquisition.

### **ALS pharmaceutical testing**

ALS has long experience in pharmaceutical testing and focuses on high quality and meeting the client's expectations. We perform analyses on raw materials, intermediates, and finished drug products, supporting R&D work and quality control testing. Our global network and our great expertise give you the possibility to find services ranging from drug discovery to clinical trials.

We offer quick turnaround times and a wide range of analyses including:

- Elemental impurity testing, >70 metals at low concentrations (ICP-SFMS)
- Sterile and non-sterile microbiological testing

- Stability testing and storage
- Chemical analyses for QC batch release
- Physical-chemical analyses according to pharmacopeia and client-specific methods
- Method validations and method transfers

## About ALS

ALS is a leading testing, inspection, certification, and verification company, headquartered in Brisbane, Australia. Servicing multiple industries globally, ALS employs over 18,000 staff in more than 65 countries. The business serves multiple end markets, notably, Environmental, Mining & Commodities, Food and Personal Care & Beauty in addition to Pharmaceutical & Healthcare.

Our vision is to be the global leader in the discipline of scientific analysis in pursuit of a better world for all. Together, our testing services will help serve the pharmaceutical industry to improve and protect patient outcomes.
